

## The World Around Us

**Bugs and bats! Birds and bears! Sea sides and  
mountain tops! Maps and Morse Code!**

**Welcome to the "Wonderful World Around Us"!**

Year 5 Harriers will be navigating and exploring  
the world around us this term. Here are some  
ways you can continue your learning at home:

- Read a biography on famous outdoorswomen and men like Jane Goodall or Steve Irwin.
- Create a map of your own backyard or a place around town. (Make sure to include a title, key, compass, and topographical features.)
- Have a campout in your backyard! Try and spot some familiar star constellations.
- Learn a bird call!
- Create a miniature habitat for an insect.
- Use leaves, stones, and sticks to create an art project or helpful tool.
